The Latest Anti-Ageing Advancements

The Natural Anti-Ageing Basics of Our Formulas

Lemon Extract is a natural source of Vitamin C and antioxidant bioflavonoids prevents against skin hyperpigmentation, revives a dull appearance by lightening dark spots.

Argan Kernal Oil contains essential fatty acids, vitamin E, polyphenols, carotenoids, ferulic acid and triterpenoids. Argan Oil restores the skin's water-lipid layer and increases the amount of nutrients and oxygen in the skin cell.

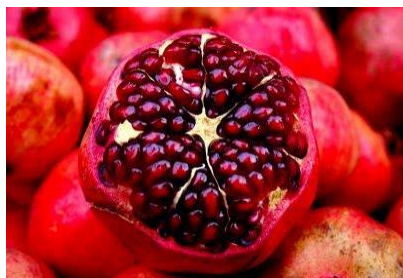

Blueberry Extract is high in antioxidants and gentle fruit acids that go to work to help stabilise cell membranes, strengthen capillaries, reduce redness, tone and rejuvenate the skin.

The Natural Anti-Ageing Basics of Our Formulas

Pomegranate Extract is a super antioxidant with astringent and anti-bacterial and inflammatory properties. It is a great addition to the skincare world for its ability to fight free-radicals and thus the signs of aging.

Avocado Oil is pressed from the fruit of the *Persea Americana* (avocado). It contains many vitamins that help skin rejuvenation and therefore is known for its antioxidant properties; vitamins include vitamin A, various B vitamins including B1 and B2, vitamin D and E.

The Natural Anti-Ageing Basics of Our Formulas

Alaria Esculenta Extract is a new marine extract from the brown algae *Alaria Esculenta* which has been developed to nourish, rejuvenate and protect the skin. Alaria extract promotes skin health and appearance by stimulating hyaluronic acid synthesis, supporting skin barrier function and improving skin hydration levels.

Goji Fruit Extract has a broad array of beneficial effects in protecting the skin from various hallmarks of aging. Goji berry fruit extract is very rich in polysaccharides, amino acids and vitamins, it stimulates cells and provides them with energy needed to perform their metabolic functions.

The Natural Anti-Ageing Basics of Our Formulas

Mango Butter has good emollient and lends protection against the sun. It is said to prevent drying of the skin and formation of wrinkles. Mango butter is rich antioxidants, vitamin A and E, reduces degeneration of skin cells and restores elasticity.

Blackcurrant Seed oil is a source of gamma-linoleic acid (GLA) as well as antioxidant properties. It is useful in preventing premature aging as it reduces wrinkle formation and repairs tissue damage.

Progeline™

Rethinking skin aging by modulating progerin; the senescence marker

Progeline™, a 3 amino acids peptide biomimetic of Elafin, an enzyme inhibitor involved in extracellular matrix integrity

Progeline™ decreases progerin synthesis, a new aging biomarker involved in skin cellular senescence

By acting directly on the senescence process, **Progeline™** clinically improves the signs associated with skin maturation: sagging, slacking and wrinkles.

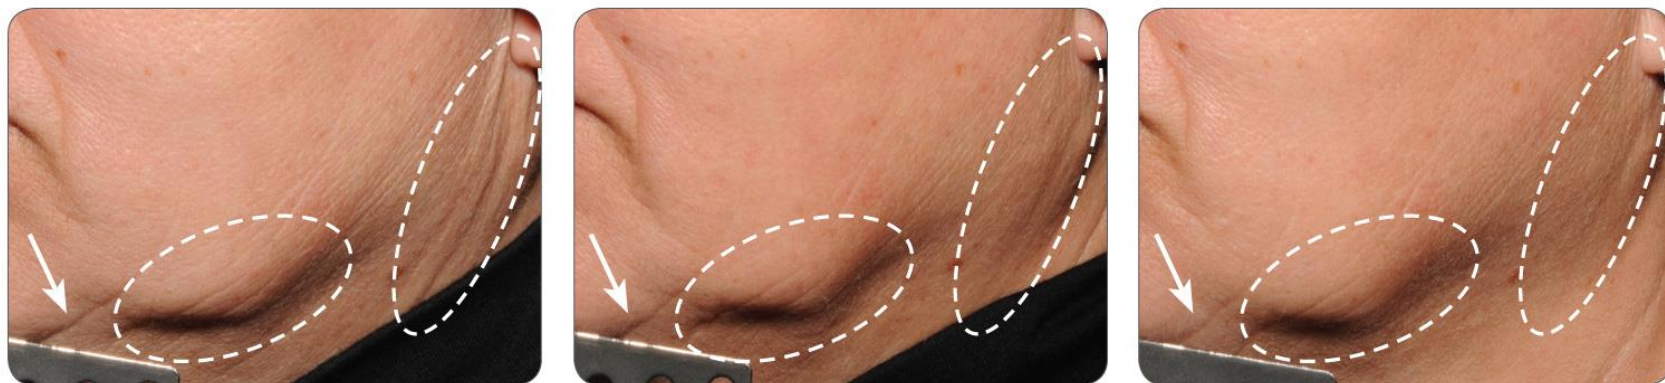

- Acts on a new aging marker
- Fights the senescence process
- Outstanding clinical results

INCI name: Glycerine (and) Water (and) Dextran (and) F₃Acetyl Tripeptide-2

Clinical evaluation of firmness & elasticity

Progeline™ clearly reduces wrinkles and skin sagging over time
