Products manufactured with ApiHealth technologies becoming more and more popular around the world. Today you can find our products in many countries (USA, Canada, EU, Middle East, Hong-Kong, Japan, China and others).

## OUR COMMITMENT

The policy of our company is to develop and manufacture products of the best quality to make our customers life more colorful and enjoyable.

Why we guarantee the high quality of our products?

- ✓ They are 100 % natural from New Zealand
- ✓ They are scientifically formulated and scientifically tested
- ✓ They are supported by Patents and Trade Mark
- ✓ They are manufactured under Risk Management Programme based on application of HACCP principles

This is the most definitive advantage of our products and our company.  
Reputation and credibility of our products and a country is of a high  
importance to us.

## ApiHealth History

History of ApiHealth NZ Ltd starts from former company Scientific Technology and Ecology Ltd., which was founded in **January 1998** and at the end of that year became a Winner of Bank of New Zealand Waitakere Eco City Business Awards in two categories: "Best New Business" and "Innovative Business".

## ApiHealth Founders

Founders of ApiHealth NZ Ltd are Dr. Nikolai Nikolaev and Dr. Tatiana Nikolaeva which had many years of experience in biological science research and used their knowledge for new technologies and products developments. Dr. Nikolai Nikolaev patented a modernized technology of bee venom collection both in Russian and New Zealand (NZ patent #329585). This technology allows collecting high grade of bee venom without harming the bees.
